# The Cold War

"USA v. USSR"

Cold War turn us to a cold earth.

Let's see who'll let the bombs go first.

Whether in the free world, "or the Eastern Bloc,"

It's a Cold War but the heat could drop.

USA:

True we just finished World War II,

With our Allies crew, now what we gonna do?

What up with the Russians? We can't trust them.

A Communist doctrine, yup they up to something.

USSR:

No we're just hanging with our neighbors,

In the Eastern Bloc, that's what a Satellite State is.

USA:

But it was called an Iron Curtain by Churchill.

USSR:

No, Comrade. We need to put in more work still.

USA:

Okay yo, we're going to make NATO.

Prepare to get contained so, y'all need to lay low.

USSR:

*Да Нет* - we're gonna start an arms race,

We're on a mission, getting missiles and a star base.

USA:

That'll put us between a rock & a hard place.

USSR:

Mutually assured destruction...

USA:

We are not safe.

USSR:

I'm Nikita Khrushchev with the warheads.

USA:

We've got to make the United Nations,

Or there'll be more dead.

Cold War turn us to a cold earth.

Let's see who'll let the bombs go first.

Whether in the Free World, "or the Eastern Bloc,"

It's a Cold War but the heat could drop. (x2)

USA:

Bridges keep burning,

Look what the Soviets did: They split Berlin.

There's no need to be scared if they blockade,

We'll break them off with an airlift.

USSR:

We're going to build a wall,

Anybody cross - we're gonna kill them all.

And in the East it will be censored,

Nothing will be able to break through our defenses.

USA:

Word - you ain't heard of Radio Free Europe?

USSR:

And what about your Red Scare?

The Rosenbergs gave us plans.

USA:

But they're dead.

USA:

Yeah, McCarthy had us searching for spies.

It's a Cold War; everybody's wearing a disguise.

Cold War turn us to a cold earth.

Let's see who'll let the bombs go first.

Whether in the Free World, "or the Eastern Bloc,"

It's a Cold War but the heat could drop. (x2)

USA:

The crisis in Cuba is close,

World War III's about to be off the coast.

The revolutionary Castro's

Got the Sovs and their missiles.

It had us all froze.

USSR:

That's because you were acting like kids,

Trying to assassinate him at the Bay of Pigs.

By the way, thank you, Mr. Kennedy,

It seems our talks to withdraw were the remedy.

USA:

Hold up wait — is that you in space?

USSR:

We just launched Sputnik 1 — want to race?

USA:

Yeah – well we beat you to the moon.

Now it looks like Gorbachev's got a new tune.

USSR:

Oh, I didn't know you heard of perestroika.

It looks like our economy is destroyed but...

USA:

Nah, it'll fall with the wall.

The Cold War could have been the end of us all.

Cold War turn us to a cold earth.

Let's see who'll let the bombs go first.

Whether in the Free World, "or the Eastern Bloc,"

It's a Cold War but the heat could drop. (x2)
