

# Migration

---

**1** Search for a news article about migration using print or online sources. You can also use Flocabulary's Week in Rap, which includes stories about Libyan refugees in the EU, a UN relief fund for Syrian refugees, crossings and refugee deaths in the Mediterranean Sea, Rohingya Muslims fleeing Myanmar, the release of detainees held for unlawful immigration from US detention centers and the Supreme Court ruling on Arizona's immigration law. If using a Week in Rap, navigate to the Interactive Lyrics tab and click on the blue text for infoboxes with links to news articles.

**2** Summarize your article in 1-2 paragraphs. Be sure to define the kind of migration (forced or voluntary) and the push and pull factors addressed. Describe the countries mentioned in the article and the challenges faced by the immigrants in their new homes.
